Use of Cookies

The AMA HOME BUYER website may use “cookies” to help you personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you, and can only be read by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the Web server that you have returned to a specific page. For example, if you personalize AMA HOME BUYER pages, or register with AMA HOME BUYER site or services, a cookie helps AMA HOME BUYER to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses, and so on. When you return to the same AMA HOME BUYER website, the information you previously provided can be retrieved, so you can easily use the AMA HOME BUYER features that you customized.

You have the ability to accept or decline cookies. Most Web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you may not be able to fully experience the interactive features of the AMA HOME BUYER services or websites you visit.

What are Dynamic Ads?

Dynamic Ads are ads that are personalized in real-time to the user. Unlike static ads that show the same content on every impression, Dynamic Ads enable the advertiser to display a unique creative for different users. Dynamic Ads are the only feasible way to scale up the number of creatives per campaign and to personalize them on each impression.

What is ReTargeting?

The main goal of ReTargeting Ads is to re-engage site visitors after they have left the site. Dynamic ReTargeting Ads are generated based on the actual products or offers viewed on the advertiser's site. For example if you've visited a retailer's website and viewed a specific product, you might receive a banner ad containing that product. Rather than showing the same ad to every visitor, AMA HOME BUYER's Dynamic Ad Application will select the most relevant ad copy based on the user's activity on the site. AMA HOME BUYER's Personalized ReTargeting Platform works when an advertiser places our tag on his website. The tag embeds a third party cookie on the browser of users visiting the site. Using Real Time Bidding (RTB) Ad Exchanges, it is then possible to focus media buying efforts against those visitors. It is important to note that the cookie itself does not contain any personal identifying information. Our Personalized ReTargeting ads intelligently match the right offering to each visitor based on his previous activities on the site. Each advertiser using AMA HOME BUYER's services is responsible to limit the number of ad impressions shown to each user in order to ensure that viewers are not overly exposed to specific ads.

How Can I Remove Myself from Being ReTargeted?

AMA HOME BUYER makes removing our tracking cookie easy for any user who wishes to do so. Users that don't want to see AMA HOME BUYER Personalized Ads should simply email info@cash4wahomes.com
